SUMMARY

I'm Antor Karmoker – a React Developer, currently honing my skills at Creative IT Institute. I specialize in building dynamic and responsive front-end applications using React,

BEST PROJECT'S

1. E-COMMERCE WEBSITE

Git link <https://github.com/antor94/Nex-ton.git>

- This project is made by me using JavaScript React.js Redux Firebase Node.js technology. Fully functional + responsive.

2. E-COMMERCE WEBSITE

Git link <https://github.com/antor94/E-commerce-Furniro.git>

- This is another e-commerce website where we have used JavaScript and React technologies to make it functional + responsive.

3. FIREBASE NOTE APP

Git link <https://github.com/antor94/firebase-login-registration-.git>

- This is a Firebase project

4. JAVASCRIPT TO-DO LIST

Git link <https://github.com/antor94/JS-porjext---to-do-list.git>

- I created this project with JavaScript where I build the logic using JavaScript methods & objects.

5. JAVASCRIPT TEAM PROJECT

Git link <https://github.com/antor94/Team-Project.git>

- This project was completed by two members of Mile Crete for a competition.
